VOL. XII. RENO, WASHOE COUNTY, NEVADA, TUESDAY, MARCH 7, 1882. NO. 133.

COAST CLIPPINGS.

Four persons in Butte county shot 150 decks and 75 geese the other afternoon.

Six monster alligators from Mexico have been received at a public garden in San Francisco.

A Texan offers 100 acres of land to every family of Jewish exiles that will move to the Lone Star State.

The remans of S. N. Merrill, a prominent citizen of Tehama county, have been discovered in a deserted cabin in the Sierra in that county.

Chin Ah Loy, one of the Chinamen confined in jail at Napa charged with the murder of E. C. Butler, last night hung himself by his queue.

Mr. Wade, of Surprise Valley, says that hay is getting to be quite an object in Surprise, and is likely to command a fancy price before the grass starts.

The Central Pacific Railroad Company has issued orders to the proprietors of its hotels at Yuma, Gila Bend Tuscon and Bowie station to sell no intoxicating liquors to its employes.

The Brownell Bros., of Big Valley, have located a coal mine in Stone Coal valley, Modoc county, which they will open up as soon as the snow gets off the ground. These coal beds are likely to prove of great value.

John B. Bruce, of the firm of Washburn & Bruce, and the Yosemite Stage and Turnpike Company, and manager of the Big Tree Station Hotel, died suddenly in an apoplectic fit just after rising from his bed, at the Big Tree Station, early Saturday morning.

Excursions are the fashion. The Worcester Car Excursion Company will start one of its new cars with a party on a sixty days' journey to the Pacific slope, April 20th. It will go by the Southern route and return by the Union Pacific, the fare for the trip being $465.

Simon Vincent had a narrow escape on the 25th of February. He was on a ferry boat on the Sacramento when it broke loose from its cable, was in the water five hours drifting down the stream hanging on to the boat, which finally went ashore and he got out. He says: "It was the most terrible night I ever experienced, and I don't care to take such a ride again."

Some of the largest Wyoming stock ranges fenced in, are forty miles square. One is forty by fifty miles. The herds are as high as thirty thousand in one band. The rodeoing or rounding up of the bands running on the open plains, and separating them for their several owners is something prodigious. Forty thousand may be seen sometimes spread over the plains, and a magnificent sight it is.

THE IODINE TRICK.

The Dodges Made Use of by Rivals in Business—The true Test.

It is astonishing to what peculiar methods people will sometimes resort to endeavor to advance their own and injure others' interests. One of the latest and most unfair expedients is that of certain manufacturers of baking powders, who are endeavoring to prejudice consumers against all other preparations than their own by exhibiting from house to house a test purporting to show the quality of various powders. The facts are, this so-called test, which we are told simply consists in adding a little iodine to a sample, can in no way reveal the true value of a baking powder, and is only calculated to deceive and prejudice the minds of the ignorant and unwary. Some powders are injurious, but this can only appear by analysis. The true value of a baking powder consists in the amount of leavening gas which is given off when heat and moisture are added to the flour, and it is only the chemist, with the aid of chemical appliances, who can determine the volumne of gas which any powder can evolve. We will venture to say that there is not an article prepared for food that might not be manipulated by chemical tests to prove that something was wrong about it, and when a person goes into a kitchen, or before a housekeeper, who is not to be presumed to understand chemical relations, and performs an experiment of even the simplest character, it is not difficult to impress one that something awful is the matter. As to baking powders, we could suggest a dozen tests that would be as ridiculous in giving a fair idea of their relative merits to an uninstructed mind as the one here mentioned. The truth is, that the best test to make of a baking powder is to try it in making bread, and see which makes the most and best. To this practical test all of the established brands of powders have been put, and housekeepers have very generally made up their minds which they prefer, and the iodine testers will find ultimately that households that have for years used a favorite brand will not be apt to make a change on the test proposed.—*American Grocer.*

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.:

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to he doctor's remedies, or any other, until e used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIRS: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy and am a well man to-day.

NEW BOOKS.

"John Eax and Mamelon; or, The South without the Shadow." By Albion W. Tourgee, L.L. D. Publishers: Fords, Howard & Hulbert. For sale by W. A. & C. S. Houghton, Sacramento, Cal.

Judge Albion W. Tourgee has been writing so fast that many feared that he would soon be written out. Those who get his newest book will have no dregs, for while it was the last published it was one of the first written. He says in his preface:

"The two stories that comprise this volume are printed in this form because I love them. Almost a decade has passed since they were written. I feel old while I read the proofs, as if looking upon a swift-grown child. I have not changed them—I could not. To me they are parts of a great panorama which I tried to paint with the whole vast scene spread out before me. To change a part would mar the harmony of the whole."

The two stories which compose the book are in excellent vein, and afford pleasant and restful reading for a tired man, as well as a juicy bit for all who read fiction.

The "Californian" for March is an instructive and interesting number. It has several continued stories, besides good sound reading on "Immigration," "Arctic Navigation," "Art," etc. "Yums," by Charles H. Phelps, is a choice bit. "The Cruise of the Corwin in the Arctic," is more interesting than a novel. "The Crown of the Valley" is an illustrate article on the semi-tropical fruits of Southern California. This home magazine is now trying to stand on its own feet, and is worthy of support from reading people of Nevada.

EDITORIAL NOTES.

A new method of municipal transportation is about to be tested in Boston. By means of a system of coupons the passenger upon his arrival in Boston, can take a coupe, especially reserved for him, and be conveyed directly and speedily to any part of the city desired. No attention to his baggage will be required, as that will be provided for by the company and will follow him at once to his hotel, residence or office as ordered. The company having charge of the matter is now completing the details of the arrangement, and already has contracted for the construction of several elegant coupes and cabs.

The lesson of the last campaign is too instructive to be lost. Nearly half the people of this country allowed themselves to be so blinded by prejudice as to believe that Garfield was almost a monster of corruption and dishonesty. Now all believe alike that he was a pure and good man. Efforts are all the time making to arouse just such base passions on both sides, and it is a weakness of human nature and a danger to our institutions that we too often fall into them.

It is thought that Senator Powning of the *Journal* will be a candidate for Congress. Local pride will naturally give him strength in Washoe county.

A Hard Punishment.

DENVER, Col., March 7.

A *Republican* special, Thursday, says: Arnold Howard and Frank Young, charged with cattle stealing, were arrested and placed in jail at Del Norte. Next day an attempt was made to break jail, but was prevented. Saturday night a hundred mounted men, said to be stock men from the Rio Grande and San Luis valleys, rode down on the guards, ordered them to throw up their hands and commenced firing in every direction. When the jail was broken open the prisoners attempted to escape. Young was mortally wounded and Howard killed outright. The body of the latter was thrown into the river. The windows of the jail were riddled with bullets. Howard has been arrested twelve times on charges of cattle stealing, and in every instance was cleared.

Kind of Mean.

BOSTON, March 7.

An unknown man this morning cut the throat of Harriet Bell while walking near her home. The assassin escaped. No cause known. She died in two minutes.

EASTERN.

The Effects of the Flood.

NEW ORLEANS, March 6.

At Greeneville, Mississippi, the backwater is still rising and spreading. It is now from six inches to a foot higher than at any previous overflow since the country was first settled. There will be very little land above water from the river front places to the hills beyond the Yazoo river. Greeneville is secure from any possible overflow. Refugees from overflowed plantations are congregating here and our resources to feed and shelter them will be severely taxed. Upper relief agents have not communicated with our local authorities. Our Board of Supervisors have asked that some of the Government rations be sent here. The need is immediate. The Sheriff of Bolivar county has lodged his prisoners in jail here. He reports very few plantations in his county with even a strip of land above water, consequently the loss of stock there will be almost total. The levees are thronged with negroes and stock whose condition is most deplorable. As its extent becomes known this calamity begins to appal. A tax sufficient to rebuild the levees just at present would be almost insupportable; but that is only an item. Laborers have lost their stocks and moveables, and are in a panic-stricken and demoralized condition. Could transportation be secured there would be an exodus from here to the hills. The despair of planters and merchants is deepening. At first this was regarded as a disaster involving losses and hard times. Now it is assuming graver and greater proportions. The most thoughtful, as well as the most sanguine, look upon it as a disaster greater than has ever befallen the bottom country. It will almost destroy the feeling of security with which our local capacity to hold the levee was becoming to be regarded. Upon this reliance was based railroad and other movements of capital towards the Yazoo delta, and if it goes all possible prosperity in this section goes with it. Your correspondent does not believe confidence or hope can be restored without national help to rebuild the levees.

A Hard Question to Answer.

ST. PAUL, March 6.

General Terry has been asked for advice by Commandant Reid at Camp Poplar river, who reports that Sheriff Healy, of Choteau county, Montana, with a posse, went into a camp of half breeds on Milk river, near Poplar River Agency, for the purpose of collecting taxes, and succeeded in getting cash and robes to the amount of about $1,000, when the noble rovers made an emphatic kick on what they were pleased to consider Healy's exactings. So they quietly made the Sheriff and party prisoners, and now don't know what to do with them. The half-breeds mentioned are really trespassers on American soil, as they came south of the line last Fall for the purpose of hunting buffalo, and are known to be largely engaged in smuggling and selling liquor and ammunition to the Indians.

What Would they Do.

NEW YORK, March 6.

The *Tribune* says Senator George, of Mississippi, made a speech to-day on the Chinese question, which proves him to be at least fifteen years behind the age, and to be clinging still to the sentiments of the dark days of the reconstruction period. That he escaped without being called upon to explain, is probably due to the fact that there were few Senators present and none listening when he read the closing portion of his speech. George, in effect, conceded the right of the people of the Pacific coast to settle the question of Chinese immigration to suit themselves, and asked that the people of the South have the same privilege in regard to negro suffrage.

Maine Election Figures.

PORTLAND, Me., March 6.

The vote for Mayor of the city resulted in no choice. Libby (Rep.), 2,719; Deering (Cit. and Dem.), 2,239; Littlefield (Temperance), 483; scattering, 47. Republicans elect all the School Committees, 5 Aldermen and 14 Councilmen. The Democrats elect 1 Alderman and 6 Councilmen. No election for one Alderman and one Councilman. Hollowell elects J. H. Leigh (Rep.) Mayor by 2,527 majority, also a straight Republican ticket in every ward. David Farrar (Rep.) was elected Mayor of Lewistown over Garcelon (Fusion); vote, 1,348 to 900. Republicans elect 5 Aldermen, Democrats elect 2. In Auburn Geo. S. Woodman (Rep.) elected Mayor by a small majority.

The Bay State Gets Some.

LAWRENCE (Mass.), March 6.

A freshet in the Merrimac river today caused a partial suspension of all mills. The river is rising. A general suspension is expected to-morrow. Ice carried away a span of the railroad bridge now building.

The Chinese Bill To-day.

WASHINGTON, March 7.

The Senate at 1:30 resumed consideration of the Chinese bill. Miller, Farley and Fair sent up to the Clerk's desk a great number of telegrams, giving accounts of anti-Chinese meetings held throughout the Pacific slope Saturday. Davis then took the floor and began a speech against the bill. He went over the familiar ground of argument in favor of Chinese immigration and claimed that there is at least as much danger to society and the political institutions of this country from the vicious and idle emigrants of European national cities as from laborers.

Jones of Nevada begged leave to correct Dawes when he assumed this opposition to Chinese arose from the over mastering passion of foreign elements there. The elections held in California soon after the ratification of the Burlingame treaty, at a time when the State was Republican by 20,000, proved conclusively that the people of California were bitterly opposed to the treaty, for a Republican candidate for Governor who endorsed the treaty was defeated by 10,000 votes.

Dawes spoke until 3:35 P. M. and was followed by Edmunds of Vermont, who defended the principle upon which the bill was based, by asserting the right of every nation to exclude non-assimilative and undesirable outsiders. At the conclusion of Edmunds' remarks Platt of Connecticut expressed a desire to make a speech on the bill, but said he was not well enough to speak to-day. A motion was then made for an executive session. The California Senators endeavored to secure an agreement to vote upon the bill at some fixed hour to-morrow, but failing to obtain unanimous consent, gave notice that they will ask the Senate to sit the bill out to-morrow. The Senate then at 4:10, went into executive session.

Word from South America.

WASHINGTON, March 7.

Rear Admiral Balch, in a communication dated Valparaso, Chili, Feb. 4, reports that he called on President Santa Maria, accompanied by Captains Belknap and McConn, and personal staff, and were very cordially received. The President returned the visit next day, accompanied by several members of his Cabinet and high officials of the army and navy. He was received on board the flag ship with the honors due such an occasion, the yards being manned and national salutes fired by the Pensacola, Alaska and Lackawanna. On his arrival on board, and upon his departure, the President expressed warm friendship for the United States on the part of Chili, and in such terms as to cause a like response on Admiral Balch's part.

A Murderer's Disappointment.

OMAHA, March 6.

A special Grand Jury to-day indicted Charles Koster for murder in the first degree, he having killed Oscar Hammer on Christmas morning. Koster was indicted about two weeks ago by the regular Grand Jury for murder in the second degree, but the mode of drawing the Grand Jury having been shown to be illegal, his plea of abatement was sustained and a new jury was ordered. Koster was committed to jail without bail. The trial will be begun in a day or two.

Fighting Phil's Fifty-First.

CHICAGO, March 6.

The 51st birthday of Lieutenant-General Philip H. Sheridan was celebrated to-night with a dinner given by the Illinois Commandery of the Loyal Legion of the United States, at the Union League Club Rooms. Seventy covers were spread. The banquet was strictly a private affair, but speeches were made by eminent citizens who served with the General in his 64 battles, and the evening passed most pleasantly.

The Suffering South.

MEMPHIS, March 7.

The Captain of the steamer Hard Cash reports that back-water from the Mississippi extends up White river to Clarendon, Arkansas, a distance of 135 miles from the mouth. The entire country intervening is under water, which is two feet higher than was ever known before. The river here continues stationary. The following telegram was sent this morning to Senators Harrison and Jackson and Congressman Moore: The suffering brought to our notice by the inhabitants of the counties in Tennessee bordering the Mississippi river, occasioned by the overflow calls loudly for assistance from the Government. What Memphis has done, or can do, will be inadequate. We urge you to obtain authority to have rations purchased here for immediate distribution in order to save persons from actual starvation. Some 3,000 to 5,000 are in absolute need, and must be helped immediately. Signed by Napoleon Hill, President of the Cotton Exchange, D. P. Hadden, President Taxing District, and others.

Terrible Storm in Mexico.

CITY OF MEXICO, March 6.

A terrible storm visited the city last night, causing great consternation among the crowd at a circus. Within five moments tons of hail tore down the canvass and with it the poles, extinguishing the lights. The scene was frightful, as women screaming and fainting, and panic-stricken people scrambled for exits and rushing ankle deep through water. Fortunately, the casualties were slight, two men only being seriously injured by the falling poles, although many were slightly hurt in the confusion.

A Serious Storm.

Death of an Eminent Man.

A New York telegram says that ex-Governor Milton S. Latham died there last Saturday night. He came in 1850 to California. He was clerk of the court, District Attorney, and in 1851 went to Congress. In 1855 he was appointed Collector of the port of San Francisco by President Pierce. In 1857 he was elected Governor; in 1860 United States Senator. He was President of the London and San Francisco Bank a long while. In 1879 he went to New York.

Happy Candelaria.

WORTH STUDYING.

The Opinion of One of the Board of Directors on Nevada's Grievances.

So much has been said about the different methods of effecting railroad reforms, that a GAZETTE representative, who was in San Francisco last week, sought an opportunity to put a few plain questions to one of the Directors of the Central Pacific, with the idea that some benefit might come of it. The gentleman said that the company at all times held themselves ready to correct any rates that were too high, and he thought it likely that there were some things that were taxed too heavily. If anyone was paying too much on goods, either in or out, they would be glad to know it and correct it. He said that the efforts of enemies to show that the railroads were responsible for hard times here must be seen through by every one. If Nevada paid nothing for freight there would be hard times as long as the mines produced nothing, and prices of everything raised was low. The railroad was no more to blame than landlords who collected rents, the saloons that charged for drinks, or the merchant who charged for groceries. Nevada is a high priced country, and all who do business there get good prices. In dull times the merchant does not reduce his prices, but he sells less. In the same way people economize on the roads by traveling less and buying less. So all classes are effected. He said that they would very likely be putting freight into Nevada from New York, by way of New Orleans and the Southern Pacific inside of six months.

How He Was Relieved.

M. M. Morrison, connected with the Kansas City (Mo.) *Times*, and a prominent real estate operator as well, unequivocally and emphatically alleges that the St. Jacobs Oil once did a kind turn which he is not likely to forget. He was traveling, and, taking cold in a sleeping car, realized that he had rheumatism in both hips. The pain was intense and his business urgent. So he thought of the St. Jacobs Oil as a remedy which was reputed to effect a rapid cure. It proved in his case, as it has in thousands of others, a blessing. Four applications gave him complete relief. Before using the oil, Mr. Morrison says, he was so stiff, and suffering so intensely, that he could hardly move. The transition from this unhappy condition to one of perfect ease, was almost marvelous. The great remedy has since been a family friend. He always keeps it in his house, and has seen its wonderful powers demonstrated on several occasions in the cures of neuralgia and rheumatism. He has never seen the remedy fail yet, and is a confirmed believer in its virtues.

He Had Better Lecture.

The following is from the *Bulletin:* About five months ago John Coffery, while driving into his barn, struck against a beam, and had his head bent back so far that his neck was dislocated. The case was considered at the time beyond hope, but Police Surgeon Stambaugh, acting on the theory that while there is life there is hope, stretched the man upon a board, built about his head a frame preventing any movement, and kept him in this position for several weeks. In time the injured parts recovered their normal position and the injuries were gradually repaired. At first there was paralysis on both sides of the body, but this was gradually diminished, and now the patient, who is able to go out, feels very little inconvenience. It is regarded as one of the most wonderful cases on record.

Going to Their New Home.

Washoe Company No. 2 met last evening to consider means of housing their hand engine, and other business. The committee on by-laws was given further time. The committee on a house reported that Frazier had found a lot that a house could be built on for $5 a month rent. The Budden house is for sale for about $100. The lot rents for $5, and a house near the bridge for $12 rent. Doc Bowman favored renting the latter, and it was done. The next meeting will be held next Monday evening. The Trustees will ask the County Commissioners to pay the rent. The Trustees were instructed to file their articles of incorporation.

It Might Have Been.

Emerson has a new minstrel and he has a new joke. He says he opened a restaurant and placed a large tureen on the counter. A man came in and asked what it was. He said, "It's bean soup." The man asked "How long since?"

One day a man came rushing out to the counter and said, "I want a chromo." Charlie asked why. He said, "I found an oyster in my soup."

He said his girl died and her sisters put up bouquets. He put up his watch.

A New Enterprise.

Ferguson & Hoffman have started a tannery down at Hatch's old place. They will have a great advantage over other leather laborers, so far as the Nevada market is concerned.

The Bucket's Rival.

An obnoxious person named Gray was ducked in the plaza fountain at Watsonville last week, for not heeding a warning to leave the town.

Successful Enterprise.

So successful have been the efforts made by R. E. Queen to furnish farmers and gardeners with the best fresh seeds, each season, at the lowest Eastern prices, that the knowing ones now buy entirely at Queen's drug store, finding that they save money, trouble, and risk by doing so. His entire stock of field, flower, and vegetable seed arrived a few days ago from the most famous seed farms of the United States, and is already selling rapidly. The best evidence of the satisfaction he gives to all is the large and rapidly increasing business which he has built up in a few years' time.

A Touch of Sentiment.

A GAZETTE reporter recently dropped into the quiet cemetery in a neighboring town, where his eye lit upon a handsome shaft bearing several names. On one side of the top was the word "Mother," with age and dates, and beneath the line, "We shall miss her at home." Near the end of the last word stood the family title "Eaton." It caused a slight revulsion to read it fast, as too many will. "We shall miss her at home Eaton."

Effects of Bad Company.

The *Chronicle* says: Three little girls whose ages range from 12 to 14 years, were locked up Saturday in the central station. The prisoners, although young in years, give evidence of their depravity by their conduct in the cell. They wore their hair cut short and banged after the most approved hoodlum style, while their slangy talk would do credit to an old Barbary Coaster. The officers booked them for the Industrial School.

Will Build of Wood.

C. J. Brookins and Alvaro Evans talked of uniting and building a brick building on the site of Brookins' store, but they failed to agree, so Brookins will build a wooden building. It is a very valuable corner, and several have tried to get it, but Brookins was too early for them.

Hanged Himself.

F. W. Potting, of Silver City, who was suffering from delirium tremens, and who had been confined in the jail at Dayton, hanged himself yesterday during the temporary absence of the jailer, with some strips of cloth from his mattrass.

Testimonial.

To all who may be suffering from any incurable diseases, attention is called to the wonderful cures performed by Mr. A. Zimmer of Reno, Nevada. While Mr. Zimmer does not claim to be a physician, yet, whatever he undertakes is sure to terminate in a PERMANENT cure. The worst kind of diseases, such as cancer and scrofula in all its worst forms, lung, liver, heart and kidney diseases, scrofular, lumps and tumors weighing from 5 to 20 pounds, scrofulous sore eyes and blindness; bleeding and blind piles in the worst form; chronic and inflammatory rheumatism erysipelas in all its worst forms, neuralgia in the stomach; ulcerated sore legs of all kinds; fits or falling sickness; salt rheum in all its worst forms; the seven kinds of dropsy; milk leg and white swelling; gangrenous or painful ulcers and mortification, though proof against the highest skill of renowned physicians and pronounced incurable by them, are alike treated by him and invariably the patient recovers and enjoys health thereafter free from all previous ailments. The remedies used by Mr. Zimmer are simple but efficacious, consisting simply of laying on of hands and the use of a few simple medicines of his own. He does not claim any supernatural powers, yet it must be conceded from the wonders he has performed that some powerful agency is allied with him. Numerous cases can be cited of almost miraculous cures, and any person by calling on or addressing me will receive further information concerning the subject, and proofs that the above statements are true.

Rescued From Death

William J Coughlin, of Somerville, Mass. says: In the fall of 1878 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping some one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

AN ACCIDENTAL DISCOVERY OF great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S
GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by
